Reasons for Allowance

2. Claims 1-2, 4-10, 12-20, 22-32, and 34-39 are allowed over the prior art made of record. Rubencyk et al. (U.S. Pub. No. 2003/0217052 A1) teaches cumulative rank and measure in confidence of a decision.

3. The following is a statement of reasons for allowance:

No. 2003/0217052 A1) do not disclose, teach, or suggest the claimed limitations of (in combination with all other features in the claim), receiving responses to the query from the plurality of decision making entities, wherein each response includes an indicator of support for the proposed action; determining the cumulative support from the query responses received; automatically communicating a second query to the plurality of decision making entities if an additional support necessary to reach minimum setpoint value is less than a second set point, as claimed in Independent claim 1.

Claims 2-4, 5, 7, 9-10, 12, 14, 16-17, and 37-39 are allowable over the prior art made of record, because they are dependent from the allowable independent claim 1.

Claims 8, 13, and 15 are allowable over the prior art made of record, because they are dependent from the allowable independent claim 6.

No. 2003/0217052 A1) do not disclose, teach, or suggest the claimed limitations of (in combination with all other features in the claim), determining the cumulative support from the

query responses received; automatically implementing the proposed action if the cumulative support is greater than the setpoint; imposing arbitration among the plurality of decision-making entities if the query responses provide cumulative support less than the minimum setpoint value, as claimed in Independent claim 18.
